CONSTRUCTION OF MOORING CELLS FOR OLMSTED LOCKS & DAM

BETWEEN MILES 965.7 TO 966.1 RIGHT DESCENDING BANK (RDB), OHIO RIVER

1. Aquaterra Contracting, Inc. will be constructing mooring cells for the Corps of Engineers to be used as a queuing (staging/holding) area at Olmsted Locks and Dam project. This work will begin on June 25, 2002, and continue for approximately one year. The work will be performed between Miles 965.7 and 966.1, right descending bank (RDB), Ohio River.
2. The work will be performed seven day a week during daylight hours. The contractor's fleet will consist of M/V GLENNA and the following barges: 110' x 50' Spud, 150' x 50' Stud, and two (2) 120' x 30' Decks. The contractor can be contacted by marine radio on Channels 13 and 14. During non-working hours, the contractor's fleet will be moored at the jobsite against the riverbank.
3. Navigators should exercise caution while transiting this area of the river.
